

Who we are?

"Energostar" is one of the largest companies in Latvia, whose main business is:

- retail and wholesale of industrial electrical equipment
- development of automation projects
- increasing the efficiency of the technological process.

What are our advantages?

- Our offer is distinguished by the fact that the products are in our warehouse. This means that you can receive the product you need on the same day.
- Since 2007, we have been working diligently to meet the requirements and wishes of each client, offering quality products, competitive prices and high levels of service.

What do we offer?

- Electric motors
- Gearboxes
- Low center electric motors
- Vibromotors
- Brake modules
- Encoders
- PLC controllers
- Frequency inverters
- Automation solutions
- Distribution cabinets and montage components
- Radio control solutions

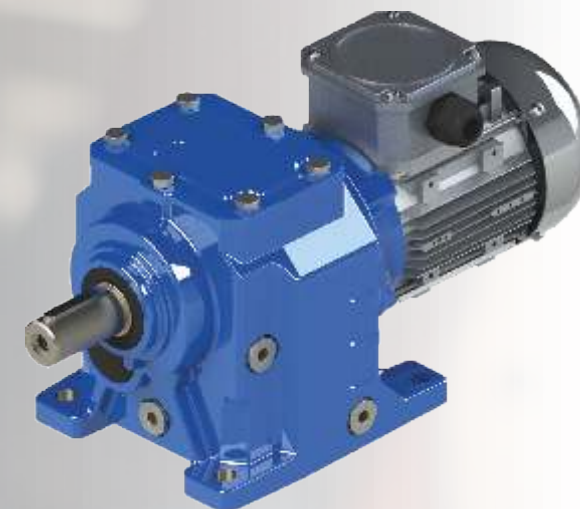

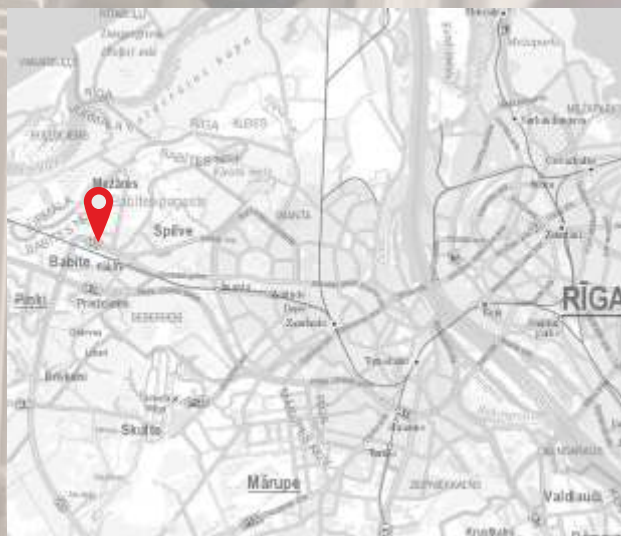

SIA Energostar

Ceļares street 2, Spilve, Babīte Municipality, LV-2101, Latvia

Registration Nr.:40003895015

Working hours:
9:00-17:00 (Monday-Friday)

office@energostar.net

ELECTRIC MOTORS

MOLL-MOTOR

electric motors

- IEC 56 - 400
- 0.06 - 2500kW
- IE1, IE2, IE3, IE4
- 1/2 speeds
- with/without brake
- explosion-proof

Forced cooling modules

- frame size 63 - 400
- 230/380V

low center electric motors

- 0.18 - 10.5kW
- HPE 50 - 80
- special IEC motors

vibromotors

- 1 or 3 phase
- adjustable counterweights

brake modules

- frame size IEC 63 - 315
- IP66

GEARBOXES

- A series helical
- D series parallel shaft mounted
- K series helical bevel
- PL series planetary
- PMRV series worm
- PCD series cycloidal
- P series shaft mounted
- PH series industrial

- O/Q series worm
- A/C series helical
- FA/FS series parallel shaft mounted
- X series helical bevel

- BHM series hypoid
- HGE series helical

AUTOMATION

encoders

- frame size IEC 56 - 225
- impulse count 1 - 2048
- IP67

frequency inverters

- Models: GA500, GA700, CR700
- 0.1 - 630kW
- Servo solutions

PLC controllers

automation components

- switches and montage components

connectors and montage components

radio control solutions
